How Much Cofounder? - sms I am planning to build a web app and sell it for profit and will need help to make it happen. I have an idea for an app that can be made by one person and I will need help to make it happen.It will be an app that lets people upload their own music and other media and lets other people comment on it. The plan is to charge a small amount to upload music and a larger amount to comment on the music.Here is a demo video of what it could look like: is very much a prototype and it will take time to build it out and get it working. However, I think there is a lot of potential in this app and I think it will be very successful if I can make it happen.So, how much cofounder do I need to make this happen? ===== alttab Here is my advice: 1\ Only have one co-founder. 2\ Do not let them talk
