apks.com 3rd June 2012 Guys the APKs are now down. I've looked around a bit and could only find one 4.4.2 OneClickrecovery v1.5 so far. Download it, unzip it into the /sdcard/ folder and put it on the "/sdcard/apps" folder Now navigate to the following folder: /sdcard/apps/OneclickrecoveryV1.5/superuser-3.0.7-efghi.zip You should be able to extract the "superuser" folder from the zip using a zip tool like 7-zip. Go to the extracted folder: /sdcard/apps/OneclickrecoveryV1.5/superuser-3.0.7-efghi/superuser Now change the permissions of the superuser folder by going into the root of the extracted "superuser" folder and run the following command. chmod -R 777 superuser Now restart your device, go to the OneClickrecovery and select "recovery", "recovery mode" and then "reboot system". Disclaimer: Make sure your device is rooted before installing the app because you might brick your device. Don't use this app if you don't know what it is. UPDATE-SuperSU-v2.46.zip for Amazon Kindle Fire HDX 8.9. 123. OneclickrecoveryV0.4.2.7z.md5 for Asus Eee Pad Transformer(TF101). aug 19, 2012 Downloads for: Amazon Kindle Fire HDX 8.9. UPDATE-SuperSU-v2.46.zip. OneclickrecoveryV0.4.2.7z.sha1 for Asus Eee Pad Transformer(TF101). Edit-OneClickrecoveryV0.4.zip Solution: Launch your e-ink device and download one of the two other apps from the links below then run the Superuser.apk as you normally would and you will be back in Business! Update-OneClickrecoveryV0.4.zip OneClickrecoveryV0.4.zip A: The SuperSU 2d92ce491b
