See also How to find out the game version? Q: Why is 'solr' gem not connecting to my Mongoid database?
When I run my rake task, I get the following error:
rake aborted! can't connect to server: Connection refused
I'm using Mongoid as the ORM and my connection URI is set up as: `mongoose.connect('mongodb://localhost/mongo:27017')`; Full error message:
rake aborted! can't connect to server: Connection refused
exited with code 1
Tasks: TOP => solr:setup
In my application.rb, I'm using the following:
`config.gem`
