/Applications/MAXON/CINEMA 4D R17/Plugins and remove others that do not apply to me. It didn't work. Then I also went to Cinema ... in /Applications/MAXON/CINEMA 4D R17/Plugins and removed everything except MAXON CINEMA 4D R17 Plugin. I removed both MAXON CINEMA 4D R17 Plugin and all other plugins. I did the same with MAXON CINEMA 4D R17 Plugin Manager. I don't have access to this, but I think it will be the same as the previous case. It did not help. I just removed MAXON CINEMA 4D R17 Plugin Manager from disk and everything worked again. Maybe I should try using it somewhere else. fffad4f19a
