Video Category:Reality television series parodies Category:HBO original programmingQ: CSS3 - how to achieve the effect of having a background image and image overlaid with shadows using pure CSS? I'm trying to find the best way to achieve the following effect using CSS3. I'd like to be able to: have a solid/transparent overlay image using a gradient (see images below) have a solid/transparent border around the image have a shadow/gradient effect on the left and the right of the image I tried doing the following, but it doesn't seem to be working - or I'm doing

---

something wrong: .transparent-overlay  
{ background: linear-gradient(to top,  
rgba(0,0,0,0) 50%,  
rgba(255,255,255,0) 50%); border-  
style: solid; border-color: red; }  
.transparent-overlay:before,  
.transparent-overlay:after { content: "";  
position: absolute; top: -10px; bottom:  
-10px; left: 0px; border-width: 10px  
10px 0px 0px; border-style: solid;  
border-color: black; } .transparent-  
overlay:after { z-index: -1; border-  
right-color: transparent; border-left-  
color: transparent; border-top-color:  
transparent; border-bottom-color:  
transparent; background-color: black;

---

```
-webkit-box-shadow: 0 0 0 10px  
white; -moz-box-shadow: 0 0 0 10px  
white; box-shadow: 0 0 0 10px white;  
}
```

An example of what I'm trying to achieve is here: A: Here is your fiddle transformed to pure CSS. I have removed all the div and class tags and moved everything into the ba244e880a
