This is the WIP next version of SoR2 SW that Red Crimson is working on. Having a Windows computer running Linux is a dream come true for many. But that dream becomes nearly impossible because T-series Macs ship with the Windows operating system. Polish duo Ralph Oelsztarek and Nicolas Ksarkiewicz produced the "Rampage" (Rampak) sound pack for Vista for Kontur. The package is designed for noise reduction equalizers. A collection dedicated to the game Epic Megatrends was found on the Internet. It contains a demo file that includes music from the game, as well as demo tracks optimized for Windows Vista (there is an opportunity to download MP3). In Moscow, the presentation of a new cartoon from Microsoft will take place on October 26 within the framework of the CG Event'2007 conference. During the World of Warcraft World Championship, which runs from October 16 to November 3 on the Internet, Blizzard Entertainment launched the Infinity Hunting PvP zone service. Unlike Rift, World of Warships, and other multiplayer titles where there is no need to fight, Infinite Hunting will have players fighting against real opponents - huge monsters and elite monsters. From October 26 to October 30, St. Petersburg will host the stage of the world championship in the game WarCraft III called WCP, in which twenty-five teams participate. The event is held as part of the Global Collective Team Cup (Global IC Cup), an analogue of the World Cup championship. The XE3 platform supports all components of the Windows Virtual PC operating system and provides a multiplayer game mode with support for voice and gesture input. XE has a rich user environment and allows you to create your own control systems. Today Dell announced its new computer called Dell XPS 813. With dimensions of 215x170x186 mm, this computer is capable of collecting 5 lots on the market.
