What's New in the E-Franchise?

===== If you are a fan of office politics and you are sure that you have the time to participate in it, you are very welcome to try the E-Franchise. It lets you create a fantasy political world where you can be as evil or as noble as you want. You can cast votes for other people and you can determine who the winners are. Getting Started:

===== What is needed to get started with the E-Franchise:

===== - Your own Web browser
- Your own IP address How to get your own IP address:

===== You can get it with the program called "WhatIsMyIP" which can be downloaded from this URL To get started, the following commands have to be executed: - Open your browser, choose a website and then enter: "javascript:alert("Your IP address is ")" - In the alert box, click on the URL which points to a form, which asks for your IP address. Click on the form and copy it. - Paste the IP address in the IP address field in the "WhatIsMyIP" client. This client is available for Windows and Macintosh computers. - Press the "Update IP address" button. The IP address is updated automatically. If you do not have a Web browser, you can use any Internet Explorer application which can open URLs in another window. You can also use stand-alone Web browsers, but they require your own IP address. What is My IP?

===== MyIP is a free service which enables anyone with an Internet connection to check his or her IP address. The address given can be used for example to check if a web site can be accessed from a certain place or if you can use an online radio. How to use the E-Franchise with MyIP: ===== - Install the MyIP client - Open the "WhatIsMyIP" application - Click on the "Settings" button - Check the "MyIP API" checkbox - Save and close the settings dialog - Click on the "Update IP address" button - Go to - Look at the address bar of your Web browser. - Your IP address is there. How to install MyIP on your computer:

===== - Download the MyIP client, for Windows from this URL - Run the client and accept the license agreement. - Open the settings dialog, click on the "MyIP API" checkbox, save and close. - Go to http
