I'm using the 'autocomplete' module of jQuery, where can I find the source code for some auto complete like this example? If I was an autocomplete function like PHP I could easily extract the source, but how about the 'autocomplete'? Thanks. A: The source code should be in the jQuery/UI source. A: No idea what your using for a source but what you can do is use the "init" callback function.

```
$( "#tags" ).autocomplete({ source: "search.php", minLength: 2, select: function(event,ui){ alert("You selected: " + ui.item.value);
```
