Farm Torrent.Q: Wifi SSID and No Internet connection issue I have a home network where I am the only device and only one wireless router on home.

Wireless router is a Huawei HG510V with build-in 2.4Ghz band and 5GHz band and both bands are connected to my router. If there is no internet to connect to, for example Wifi or ADSL, after about 3 minutes from switch off it will connect

to the network, to a maximum of 5 minutes and if connect for longer than 5 minutes it will do this once again. After this, if I click on my WiFi network and try to connect to the network (SSID), I get the following message: The network 'TESTMOUNT' is currently unavailable. You are trying to connect to a peer that is currently unavailable. Please try again later. I checked the log
