SpySites Crack + Torrent (Activation Code) (2022)

SpySites is an application that will stop Web Sites from installing Spyware, Sleazeware and Cookies on your PC. SpySites includes a database of over 4,600 known Spy/Sleaze sites and guides you through the simple process of including them in Internet Explorer's Restricted Zone and setting policies to prevent them from performing intrusive acts on your PC. By setting the policies for the Restricted sites zone to a very high level of security, you can be assured that any web sites added to the Restricted sites zone cannot do certain things which could compromise your privacy and security such as installing and/or running: ActiveX controls Java applets JavaScript Cookies Download and installation of Desktop items Use of email address as anonymous FTP password Hijacking your Home page and/or Search page Installing their "Sleazeware" without your knowledge Internet Explorer's Restricted Zone can be extremely effective blocking these actions but Microsoft's Help file doesn't explain exactly how it works, what it does or how to use it. By using SpySites to set policies you will prevent sites from intruding on your privacy and possibly taking over your PC. Those annoying popups may still appear but their ability to set Cookies or perform other actions on your Computer will be blocked. SpySites provides an easy to use GUI so you don't have to be a programmer to protect your PC from Site's intrusions. SpySites is the best way to make sure your Computer is protected from known Spy/Sleaze sites. From SpySites.... Get a real photo of your dog. Upload your dog's picture. What's New In SpySites?

To stop Spyware and the other listed intrusive activities that can occur, SpySites will prevent those sites from performing those actions. SpySites was developed by the same people who created SpywareBlokker and Spyware Defender and is based on the same technology. Like Spyware Defender, SpySites automatically scans the Internet for known Spy and Sleaze sites. If SpySites finds a site that it is concerned about, it sends an email to you telling you about the site. You can then decide if you want to add the site to your Restricted Sites zone and make the necessary security settings to prevent the site from installing Spyware and Cookies without your knowledge. SpySites Features: Easy to use Protects yourself and the rest of your computer against Spyware and other forms of Adware and AllActive Protects your personal privacy and security Requires no additional knowledge or software installations Includes a database of over 4,600 known spy and sleaze sites and more will be added monthly SpySites Technical Details: SpySites is powered by the SpywareBlokker engine which is well known to thwart Spyware. SpySites scans your Internet Explorer files while you are browsing and currently has a database of over 4,600 known Spy and Sleaze sites. SpySites will not search any site before you add it to your Restricted Zone. SpySites will scan for Spyware and AllActive indiscriminately and is not a Spyware scanner, although will find Spyware! SpySites does not need any software to operate it and does not add any unnecessary software to your computer such as: Registry cleaners Spyware scanners Browser add-ons Updater applications Modules Browser extensions Popup blockers The software will notify you via email if a site appears to be Spyware or a dangerous site. If you don't want to use SpySites then you can remove the security settings completely and block any browser's Popup blocker's ability to block Popups. You will still see these annoying popups as you browse the Internet but they will not be able to install or perform other actions such as attempt to install their "Sleazeware" on your PC. The site listed is for educational purposes only and does not encourage or
