Khan, Farangi C., Vastu Shastra MS 1460, under the aegis of the Oxford University As the book of reference Harijan, 9 January 1981 Vastu Shastra The first work on all aspects of building design Vastu Shastra is a treatise on the basic principles of architecture and its applications. The first phase of the Vastu Shastra is called the Bhumiparvan or "foundation primer", in which the design or layout for a building is specified. The basis of all architectures is the construction of a building on a floor plan and surrounding walls. The second phase is called Dhurva, which is concerned with the alignment of rooms in a building. The third phase of Vastu Shastra deals with Daiva, meaning "space". The last phase of Vastu Shastra deals with the application of the built design. The author, Vishwakarma, stated that he was the author of the Vastu Shastra. This has been questioned by some Western scholars, who believe that it was either the Jain architect Somayaji or the Ikshvaku architects. It is generally believed that the Vastu Shastra is a compilation of texts from various architects, such as Narasimha and Somayaji, from the 11th century AD. According to the text, it originated in ancient India, "the Bhumi and the Daiva of the Vastu Purush are the originals which are eternal". It has been translated into English. Contemporary scholars of Vastu Shastra Prof. Swaminatha Aiyar, Director of the Institute of Advanced Study, Trivandrum, Kerala, India Prof. C. Visvesvaraya, former chief engineer of India, and a mechanical engineering consultant Prof. S.S.Purushothaman Naidu, former Professor of Engineering, at the University of Maryland, Baltimore County. Prof. Anil Kumar Gupta, Dean of the Mechanical Engineering Department, at the Indian Institute of Science, Bangalore, India Notes References Category:Hindu texts Category:Architecture books Category:Hindu architecture Category:Architectural design Category:H 1cb139a0ed
