C:\documents and settings\All Users\Start Menu\Programs\Startup fsClock22.scr Size: 1172.37 K nfsClock5 is a clock screensaver that displays the time with the hands on a

What's New In NfsClock17?

nfsClock17 is an animated clock screensaver that displays the time in your local clock. You can use this screensaver anytime your monitor is idle, or if your boss is nagging you to get to work and then reminding you how much you need to be at work. The time is displayed in a 12 hour, 24 hour, 12 hour plus 24 hour clock, and is displayed by the individual hour (am/pm), day, month and year. The hour and minute hands are displayed in a pulsating fashion for added effect. If you have multiple screensavers installed you will get to see each one's setting in the system tray. Installation Notes: 1. Copy nfsClock17.scr to your desktop 2. Double click on the nfsClock17.scr file and click on "install". 3. You will be asked for the location you want to install nfsClock17. 4. Click Next to continue 5. Click on Install to begin the installation of nfsClock17. 6. nfsClock17 will install. 7. When completed, the screensaver will be removed from your system. 8. The screensaver can be set to turn itself off after a specific period of time if desired. 9. Restart your computer. 10. Launch the screensaver by double clicking on your desktop. This screensaver will display the time and work with all of the following screensavers: Custom Time Day to Night Time And Weather Time to Go Time to Surfing Time And Weather Nightsky By: Admin on January 2, 2008, 9:27 am Hi there, Here is what nfsClock17 looks like: Click on the top left image to see it full screen. Click on the bottom left image to see it in vertical screen mode. When nfsClock17 goes idle, it will display the current time: By: Whister on February 7, 2008, 9:44 am great! but if i want to change the clock display for another language, how? By: Admin on February 7, 2008, 11:25 pm Hi, I don't know what language you speak, but it should be very easy to change it. The.scr file is just an.inf file with an English.res file embedded into it. You would have to create a new.inf file with the correct.res file. By: Whister on February 7, 2008, 11:30 pm sorry, i mean the time display. i want to change the hour format into "2:09 am", "3:23 am", "7:01 am", "6:02 pm", "8:00 pm" By: Admin on
