This article focuses on the online game, but you'll be surprised to learn that it takes place inside a 3D world. Graphics and textures that are still necessary, but the developers have been integrating them for years. In most cases, the goal is to become the most powerful defense forces that the earth has ever seen. In this game, you can build underground fortresses and bases and this will help you deal with the opponents. Most of the time, the partners of the military forces have just one purpose, and that's to protect the planet from the monsters. This is nothing new, since the military forces are always able to succeed in that. Some of the monsters have their reasons and they've been turning the planet in a big air of fire. The only option is to find them and stop them. The creatures can be a bit tougher than the military forces, but don't worry, this is why you have the most powerful weapons at your disposal. In conclusion Even though this game is pretty simple, most of the features it has give you an idea of the development process that has been taking place for years. There's no denying that the tools of science fiction are here, because they have nothing to worry about, since the military forces have everything in their hands. The best way to win, is to prepare everything, so there won't be any setbacks. This is a place to share your experience of working with your own evaluation system.
