steve.lee@afreebsd.com ----- This email has been checked for viruses by Avast antivirus service. Romney spent about \$18 million on “leadership PACs” last year, according to the Center for Responsive Politics, leaving him second in the pack with plenty of

---

cash to buy his way through the remaining primaries. But money doesn't always translate into influence, and the Republican nominee has had a particularly rocky time convincing voters and the press that he deserves the White House. The Obama campaign has repeatedly hammered Romney for "pandering" to the far right, something he has made a point of

---

rebutting with carefully worded statements emphasizing his appeal to mainstream voters. But the attacks haven't worked, and in fact could backfire if Romney

Jazz Teacher is a Java-based application that enables you to practice and learn Jazz chords on your Midi keyboard. Jazz Teacher displays the chords on the screen,

---

enabling you to configure the keys to include, the midi device and the tolerance level. Users can also create their own chords in XML format. As a Java Swing application, the code is object-oriented and Swing-based. This enables the developer to interact with the users through a graphical user interface (GUI). To be able to run the application on every platform, the developer has used

---

the J2ME API, which is a standard technology for mobile phones, especially for the low cost ones. Developers have used the standard method to make their application compatible with many different phones. The application is written in Java and uses the Sun Microsystems Java Runtime Environment (JRE). Jazz Teacher uses a basic system of components for its design. This ensures the

---

best compatibility. The application is tested on Windows 98/Me, Windows XP, Windows 2000, Windows NT, Linux and Solaris. The application should run on mobile phones such as: All Apple phones Blackberry phones Handheld phones Motorola phones Nokia phones Other smartphones Palm phones Windows Mobile phones Windows Smartphones BlackBerry Smartphones Jazz

---

Teacher is the application that takes you on the way of becoming a professional musician. It can run on your PC, you just have to plug the MidiKeyboard of your choice (if you have more than one, you can select it) and start the application. Then you have to select the mode of your choice: Teaching - In this mode the application shows you an example chord, you can select the chord on

---

the keyboard and press the keys to play the chord on your MIDI Keyboard. Practicing - In this mode you can play the chord and you can keep listening to the chords that are shown on the screen. Learning - In this mode the application will show you a chord on the keyboard and the midi notes, you can play this chord with the keys on the keyboard and you can also listen to the chords that

---

are displayed on the screen. It is also possible to copy the chords from one mode to another one. But the best way of learning is to play the chords and to listen to them, if you do not have a keyboard, it is possible to practice and learn Jazz chords with a virtual keyboard. In this mode, Jazz Teacher offers you a virtual keyboard, where you can play chords and the chords that you

---

play will be shown on the screen. The developer has used the SetPitch API to make sure that the chords are played with the right volume. Jazz Teacher is a free

---
