I want that section to be protected, so only logged in users can access that content. As it's currently written, only the top of the content is being blocked. I'm assuming I need some kind of wrapper inside of the div, but I'm not sure how to do it. A: You can block content in a div by using the css rules : .container:before { content: ""; display: block; position: fixed; top: 0; left: 0; right: 0; bottom: 0; z-index: 100; background-color:rgba(0, 0, 0, 0.3); } The present invention relates to a vehicle. More particularly, the present invention relates to an improved vehicle having a folding frame for carrying items. Many people possess items for which they wish to be conveniently transported from location to location. For example, when traveling to a picnic location, or even simply to a friend's or relative's house, it may be desirable to have a lawn chair for relaxing at the picnic site or for sitting in front of a fireplace at the friend's house. A boat may also be transported by a user to a lake, pond, or river. When traveling on a road or highway, the user may wish to have a table or bench at which to eat meals, or may wish to transport items, such as groceries, a fishing rod, or a camping gear, on the roof of the vehicle. These items may also be stored in a location within the vehicle in such a manner as to be readily accessible to the user
