Download.Q: Using XSD.exe and a custom validation method in VS2010 I have to make a web service using VS2010. I must use XML Schema DTD for validating. Unfortunately, XSD.exe does not support custom validation, therefore, I need to use XSD.exe along with some custom validator class. I use XSD.exe (filename) from the VS2010 and its OutputPath is bin\Debug folder. I tried XSD.exe-ing the validated xml file from VS2010 but it does not work "C:\Program Files\Microsoft Visual Studio 10.0\VC\BIN\XSD.exe". Can somebody tell me what's wrong? Edit: I'm speaking of xsd.exe of VS2010 only. A: In addition to the built-in XML Validator you can use the Visual Studio Extensions > XML | XML Schema (look for XSD.exe in the "validation" group). XSD.exe is NOT a built-in Visual Studio 2010 component, it is a Visual Studio 2008 component. While XSD 570a42141b
