Compatible with YATZER Studio. published:29 Nov 2015 views:366415 Have you created a Karaoke or even an ultra-karaoke with karaoke video games like Band in the Moon

SongEasy (Final 2022)

The SongEasy program is an ideal companion for many karaoke and karaoke players who want a simple way of selecting their personal music. When you start it for the first time, it will scan the CD or the MP3 record to help you to select the correct song. On a basic level SongEasy can help you to choose files that are inside the same folder as the selected CD or MP3 file. It can also 'find' the name of the song. You can change the speed of the search. But if SongEasy does not find the file that you want, you can add a description, a comment for an ID3-tag or even an URL, so that SongEasy can find it quickly. If you know the name of the song very precisely, you can take a look at the in-game Song Easy-Pogos, where you can click on the parts of the song and select different options for the song. The program has been tested by many, but if you have a problem, you can send me the error-log and I will see it shortly. Limitations of SongEasy: SongEasy is actually more like a tag editor, but for music files. It cannot fix the frequency of an MP3 file, like WaveMonkey, it cannot add the ID3-Tags of a file and not add files from the windows share in your network. If you have more questions, write them to me. Super Music Maker is a handy and easy to use music maker that allows you to make your own music easily. You can easy modify the song, you could add Chorus, Singing, Lead Vocal, backing vocals, Drum, Bass, Guitar, and even add effects to your melody. You can also view your music on your PC. You can also print and export music on a CD. Super Music Maker is a easy to use program. Super Music Maker is a handy and easy to use music maker that allows you to make your own music easily.
