Mutations in the recombinase-associated protein complex SWI/SNF have long been known to cause the developmental disorder Rubinstein-Taybi syndrome, in which the sry-related HMG box protein SRY appears to be defective. However, it is less well known that mutations in other SWI/SNF-associated proteins are the cause of a variety of other human developmental abnormalities. This Opinion and Research Perspective has been written to highlight recent advances in our understanding of SWI/SNF function and the pathogenesis of human developmental abnormalities. The main focus of this Opinion and Research Perspective is to put forward a series of core SWI/SNF functions that play important roles in the regulation of gene expression in eukaryotes.Selena Gomez has arrived at the Grammys with her adoring fans in tow, riding in the limo, letting them play in her hair, and making them clamor for videos of her crying on the red carpet. "I'm the saddest person in the world right now," Gomez tells reporters, before breaking down, "I don't know what else to say." Much of the conversation during the paparazzi-heavy night was about Gomez and Justin Bieber, who was also at the Grammy pre-show events. The pop star reportedly clashed with Canadian award show organizers and at one point received a headbutt from a member of Bieber's entourage. Since then, Gomez has been closely guarded by security at all her events. The Revolt star also expressed frustration with being asked about Bieber, who's been accused of beating the airbrush out of his new ex-girlfriend, and leaked pictures of his 12-year-old girlfriend being threatened at a party. "I am so embarrassed for Justin right now," she said. "...It's not fair for me to go out here and talk about him. I've already had enough." Gomez got a few 1cb139a0ed
