Ratings No one is expected to know every ZIP code in the United States, but this information is often required for various reasons. While you can rely on online services to find what you need, many users find a desktop application to be much more convenient. US Zip Code, City and State Search Database Software is a lightweight program that provides you with a list of all the existing US ZIP codes, as well as their corresponding cities and states. Search for specific locations based on ZIP codes, cities or states When setting up a search, it is not necessary to enter a complete name or ZIP code, as the program displays all the results that contain the provided term. Unfortunately, though, it is not possible to create a more complex search, should you, for example, wish to find a ZIP code or city that is located in a specific state. Also, once the results have been displayed, you cannot filter them in any way or sort them based on the ZIP code, city or state. Export search results and edit the default database If you want to save the generated list of locations, you can export it to a text or Excel file, as well as copy the entries to the clipboard. Also, if you wish to modify the included ZIP code database, 1d6a3396d6
