Free FLV To 3GP Converter X64 [March-2022]

Free FLV to 3GP Converter is a reliable application that enables you to convert video files - FLV, F4V, MPG, MPEG, and MPEG2 - to various audio and video formats. Clean feature lineup The program's interface is user-friendly and attractive in its simplicity. You may add one or more files (it supports batch conversions - drag and drop is not supported), select the output format and destination, and start converting. Different output profiles The profile of the output format can be set to general video (e.g. AVI, MPG, MP4, MOV), general audio (e.g. MP3, WAV, WMA, AMV), lossless audio (WAV, WMA), mobile phone (3GP, MP4, AVI), Google phone (3GP), or user-defined. Audio and video settings Furthermore, you can configure audio settings (encoder, channels, audio bitrate, sample rate) and video settings (encoder, frame rate, resolution, video bitrate), and you can also merge several files into one (so, the software is also a video joiner). Testing its performance We put several video files to the test, and Free FLV to 3GP Converter worked wonderfully. For instance, we converted a 200MB FLV file to AVI format, and the task took only three minutes to finish. The program plays sound notifications at the end of the task, and it manages to maintain the sound and image quality. Plus, each audio and video option has a short description in the Settings menu. An overall efficient video converter The bottom line is that Free FLV to 3GP Converter is a great tool for converting video files. It uses a moderate amount of system resources and it is easy to handle by all users. Tags: Requirements: View: Downloads: User Reviews Just what the EIDT said.
