For those of you who want to code in a .NET language, but hate some of the typical .NET code editor limitations, there is Aspose.Cells. You can use the Aspose.Cells API to create rich .NET applications which can import, modify, and save Excel files. The API is compatible with all .NET framework versions. The API is a set of C# classes that work on .NET Framework 2.0 or higher. In addition, the API provides Aspose.Cells.Export.NET.dll assembly which works with Excel 2007-2013 without any modifications. The API is easy to use. You only have to install the assembly into your project and call the Aspose.Cells.Cell class methods to work with cells and cell values. The cell classes provide properties like cell color, font style, font size, cell alignment, cell border style and many other features. Using the Aspose.Cells API you can perform the following tasks: * Import Excel files into your .NET application. * Create a new Excel sheet. * Change Excel sheet design. * Get the Excel file rows, columns, worksheets, ranges, row numbers, column numbers and ranges. * Find a range in Excel. * Set Excel cells values. * Extract text from Excel worksheets. * Extract text from Excel cell. * Export Excel file with all cells and cell values. * Export Excel to image. * Get graphic object representation of an Excel cell. * Validate Excel file format. * Count and get cell value. * Get Excel cell value. * Get excel cell formatted value. * Print Excel file and generate PDF file. * Reset Excel cell. * Get Excel cell URL. * Get Excel sheet name. * Get Excel sheet columns. * Insert Excel file into a Visual Studio project. Description: The Aspose.Tiff library for .NET is a powerful yet easy-to-use library that can help in the conversion of images from one format to another. It supports all popular image formats and other Tiff related image formats. Using this library, you can convert any file to TIFF, RGB (rgb), Indexed (ico), GIF, JPG, JPEG, PNG, PNM, BMP, PSD, XBM, WBMP and other formats. This library is a collection of classes, methods and extension methods that helps you perform the desired task in an easy way. Moreover, all conversions are performed with a single line of code, thus saving time and resources. The Aspose.Tiff library for .NET supports the following image formats: * JPG * JPEG * GIF * PNG * BMP * TIF * PSD * PNM * WBMP * ICO * XBM * CR2
