Q: Can I use a USB thumb drive on an ASUS EEE PC to store images, videos, or any other files? I have an ASUS EEE PC 701 and have a USB thumb drive that is no longer usable. I know I can boot a different Linux distro on it but would rather not do that. Is there any way to use the USB thumb drive on the EEE PC or will I be stuck with just the built-in SD card slot for storage? A: Yes, you can use a USB stick on the EEE PC 701. Softonic is a reputable file hosting service. Multiple piezoelectric sensors for highly accurate small-scale displacement measurement. A multiple piezoelectric sensor, composed of a number of very fine piezoelectric sensor elements arranged in an array, is proposed for highly accurate displacement measurement. This sensor makes it possible to measure displacement with both a high spatial resolution and high sensitivity. The sensor is assembled by the simultaneous deposition of the sensor elements and input/output wiring layers. In addition, this sensor can be fabricated by combining the techniques of the e-beam evaporation and wafer-scale processing. The sensor is characterized, in terms of its sensitivity and spatial resolution, for an area of $2 \times 2 \times 0.7$ mm³. As a result, the sensor has a maximum sensitivity of 0.12 fm/V and a spatial resolution of about 10 μm. In addition, the sensor is capable of performing highly accurate displacement measurements over a frequency range of 10(-5) to 10 Hz. The sensor can be used for an ultra-high resolution, precision, and high sensitivity measurement of micro- and nanoscale deformations. a) 3 (b) - 3 (c) - 1 (d) 0 . 0 2 d W h

Screenshots of Powershell Screen Saver With Different Features Comments Niek Mar 17, 2015 11:00 What can I say, this is just like my previous screensaver. I tried to fit this in to both Vista and Win7. In Vista, it takes up more space, this screensaver is just fine on Win7. If someone wants to get this on their Win7 PC, look for the Screensaver.exe that can be found in C:\Windows\System32\config\systemprofile\Desktop\Screensaver. You have to get that exe as well to make this work. Then you just have to run it. It is not as powerful as this one, but it is still cool. You can run it on your Win 7 PC, you just can't adjust all the options like you can on this one. Just do as I told you and the problem will be solved. Good Luck. :) Anonymous Mar 18, 2015 02:40 I just downloaded this screensaver to run on my Windows 7 PC and it works very well. The only thing I had to do was check the box to have it start when I log on. I downloaded it from cnet and was surprised that it was so good. It has a pretty cool look and it's fun to use. I'd love to get a copy of the software to use on my Mac. Pat Mar 18, 2015 04:07 I tried to get the 3D Pipes screensaver on Win 7. I downloaded the executable file and it installed fine. I tried to run it and got the following error: Microsoft windows was not able to verify the image because the signature could not be verified. Windows was unable to start the application on the internet site. There was no screensaver actually started and the error message remained there forever. I have Windows 7 Home Premium 64 bits with the latest service pack installed. Anonymous Jul 21, 2015 04:35 I have seen a very similar screensaver, except mine has water flowing in it. If I remember right, I think it comes from the xscreensaver website. Gizmo Jul 21, 2015 09:09 From what I have seen, this screensaver does not come from the xscreensaver website. Anonymous Jul 22, 2015 00:09 Is there any way to get this screensaver to work without the Internet?Q: Appending `data:text/csv;charset=utf-8`,`data:application/octet-stream, or binary data to a XML document I have a requirement to load a variable number of CVS files to an XML document and using the id attribute of the CVS files,

append the values to a unique XML element.
