
Crack.schemaplic.5.0

.schemaplic.5.0 /schemlink.xml: Error reading file: PKIX path building failure: destroying PKIX path building error: Can't create file: no such file or directory The error may appear due to the fact that you did not specify a connection file in the manifest. You may get an error without including the manifest if you have not specified paths to local files in the manifest With the dir command you can look at the list of files If you see a line starting with PKIX, it means the file is corrupted or doesn't exist.
