## What's New in the Windows Password Unlocker Enterprise?

Windows Password Unlocker Enterprise is an advanced software application whose purpose is to help you remove Windows local admin and other users' passwords, change the password, as well as create a new admin account. Plus, it is able to deal with domain admin and users' passwords in order to alter or create a new domain admin account and works on Windows 8/7/Vista/XP/2000, as well as Windows 2008(R2)/2003(R2)/2000 servers. Generating a bootable CD/DVD or USB device Reinstalling the operating system when you forget your password may be not the best solution for all users out there, as you lose all configurations. Windows Password Unlocker Enterprise offers a straightforward software solution in order to help you skip the reinstallation operation. It lets you create a bootable CD/DVD or USB device in order to reset and alter passwords in just a few minutes. Straightforward looks You are welcomed by a clean feature lineup that gives you the possibility to choose between two main options: create a password reset CD/DVD or generate a password reset USB flash drive. Plus, you may select the target device from a drop-down list. How it works At the end of the burning operation, you can simply restart your computer and press the F2, Delete, or F10 key to enter your BIOS Setup when the computer is booting. The next step required to finish the process is to select the Boot Device Priority, and you may opt for a bootable CD/DVD or USB flash drive. After saving the settings and closing the BIOS window, the computer automatically restarts with the altered BIOS settings. After a successful booting session, you are able to reset the Windows local password. You can pick the desired operating system and choose between three main modes: remove or change Windows password, or create a new admin account. Additionally, the tool lets you change the Windows domain password and create a new domain admin account. Bottom line All in all, Windows Password Unlocker Enterprise combines ease of use with advanced features in order to help you reset Windows local and domain passwords with the aid of a bootable CD/DVD/USB.
