The new AI assistant Dictée, AI Draft, AI Ultimate Team, Player MyPlayer and Player Vision Enhancements, and revamped formations, training, and more all play a part in this year's improved gameplay. Enhanced Player Movement First introduced in FIFA 17, HyperMotion™ allows players to move in more natural ways than ever before by giving them tools to replicate the instinctive behaviour of elite footballers. Dictée's evolved intelligence allows her to take your voice and more, enabling the player to control Dictée's behaviour in the most effective and intuitive way possible. New Feints What's the perfect team to start a new career or journey to the top? To sign the perfect signing? Or to bring your best forward to net a goal? Under the new Feint system, players are given the opportunity to decide in which situation and time they would like to perform the feint. And more of your players possess the desire to send the ball into the path of your opponent, allowing for more passes out of trouble and into open areas. It's a fundamental part of the game and a new feature to this year's FIFA series. New 360 Vision Camera With the addition of Live Interactive Player Details (LIPD) from Microsoft's Kinect technology, you can make the most of every FIFA Player Perception (FAPP) System. Improved Friendlies Over 100 official friendlies* have been added in all three playable modes, including a number of classic friendlies re-created with the clubs, teams, and venues they originally played in. Also, friendlies have been completely overhauled with a new training, preparation, and goal scoring system to create more unpredictable matches. 2018 International Teams You'll also find an all-new selection of international teams in Fifa 22 Cracked Version, including: Barca (+20) Manchester United (+20) Liverpool (+20) Arsenal (+20) Manchester City (+20) Tottenham Hotspur (+
