- **Team of the Year.** Introducing Team of the Year, a new way to celebrate extraordinary teams and the most productive players on a pitch. To see who is ranked in the Team of the Year, or who is the Team of the Season, there will be three Power of the Team of the Year videos on FIFA.com – one for each month of the 2018 FIFA World Cup. To decide which team has the most productive players, we highlight the most important stats from the eight most important positions on the pitch and submit the conclusions to a panel of football experts every month. They make the selections, presented as video content on FIFA.com.
- **The New Editor.** Powered by Play-Action Football, the all-new editor brings layers of direction control, natural ball movements and four new animations – firsts for the FIFA Editor. The 4K Mode tools allows you create familiar, instant replays and replay its actions to present targeted and matched-channels playback. The new video editor is integrated into the cover flow user interface, so gamers can access it from any context with easy previews, highlights and call-to-actions across the board.
- **Play the Champion.** Choose between the new Career and Showcase modes to create your own player and play as your favourite representative. Almost 300 of the best in the world have already signed up for the FIFA University, a new online program for FIFA community.
